Complaint Title: Advanced Grocery Savers Complaint 74634 for \$19.95

Complaint #74634

I heard this great deal on the radio, call this number - research needed in my area for local grocery stores - receive \$1,000 in free groceries (anything from any isle). I called, there were hoops to jump through and they continued to try and get me hooked in for "free" gas, etc. I foolishly gave them my credit card for \$19.95. I am not able to have coupons mailed to my home as promised (you have to sign up for something more to do that, that which was originally promised). The customer service was short-tempered. I was also promised to receive a \$15.00 rebate check in the mail after two weeks - it's been almost a month and I haven't received a rebate check. Nor have I been able to use any coupons. Heard on a local radio station (92.7 KQFC). Frustrating. Thanks for preying on people in difficult financial times and being 100% misleading and fraudulent. Ethical...

Signed up for the program, but everytime I try to log in, I get a log in error (I know my username and password). all these other advertisement/ surveys will pop up when you click on the customer service link. I heard the Ad on Power106.9FM in Omaha NE. Being in a recession I thought this would help out but its money wasted. I could of used that 19.95 to buy some real groceries not false hope. I should of listen to that voice in my head "if it sounds too good to be true.....run like hell!

I heard an add on a local radio station which stated that I would received \$1000 worth of free groceries as a participant in a market research study. When I called the 1-800#, I spoke with Aidan, employee #188. I informed him that I was no longer interested in the vouchers and I told him I was not authorizing him to debit my card because I realized that I was being scammed after listening to his explanation for why I was being charged 19.95 to participate in "market research!" Needless to say, they debited my account!!!!

Well, I have been using the program for about a year and it works great. I have read through all of these comments on the company and can tell that its user error, no fault of AGS. Just saying if used correctly it works. Its not a magic bullet for savings, but if you use it right you will save money.

I feel the need to respond to this "complaint" from Coreen from 11/14/2011. The Advanced Grocery Savers program is exactly that... A PROGRAM. It is not simply "pay \$20 and receive \$1,000 in free groceries" as Coreen seems to be suggesting in her complaint. It is a program that IF USED PROPERLY does in fact work very well and has saved many people thousands of dollars on their grocery bills. Too many people think that they can just get everything in this world for free and as everyone should know, that's not how the world works. Advanced Grocery Savers is a legitimate program that DOES IN FACT WORK!!!

I suspect that the individual posting this complaint thought they were gonna be handed \$1,000 in free groceries by simply paying someone \$20. Sorry, that's not how it works in the world! You are paying for the system, and if you don't use it properly, guess what??? IT WON'T WORK. Naturally the internet let's anyone anonymously complain about anything under the sun, but anyone that is reading this should be aware - the claims in this complaints are completely inaccurate, so BEWARE!!!

I just called the number (8002967804) that I heard on the radio for this program. I answered a few "qualifying questions" and was then asked for \$19.95 for processing and shipping. I told the rep that I had reservations and requested the company website for some type of verification. He told me that the site could only be accessed with the pin number that they would mail to me after my payment but he did offer me a customer service number (8887611039). While on the phone with him I found this site. Thank you guys! Needless to say, I did not proceed any further with him.
