They also have different web site names
www.famebrand.com, <http://lorddeal.com>
These are scam sites offering low priced electronics. Their goal is to steal your money. I am a PC Tech and usually never fall for this stuff. I never wire money, but this time I wired money, and never received goods.

P.S NEVER WIRE ANY MONEY NO MATTER HOW GOOD OF A DEAL.

If you send me \$500 I can get you your money back. No I am NOT going to take your money but by and large if someone asks for a western union as payment THEY ARE SCAMMING YOU. If you need to send money to someone you know (as in know in real life that you have a friendship/relationship with) who is in a jam then use Western Union. Otherwise they are trying to rip you off.

You can only purchase new iPhones from Apple or one of the wireless carriers. Anyone else is a scam.
