debited my bank account in monthly instalments and when I tried to contact them they were no-where to be found. The phone number they gave me goes to a legit company who never heard of "FG LIFE INSURANCE CO".

It appears that I am just another fool who has been taken for a ride. If there is any way to file legal action against these con men please count me in..

Well ...had an insurance agent come to my home telling me importance of having disability insurance. I agreed and signed a "contract" well that was 08/2008. I had not received a policy packet...or policy number and it was for an ins co. Called old mutual. Finding out today they are in Africa??? Anyways was reviewing my bank statement seen the usual \$101.43 deducted saw FGLIFEINSCO decided to google them to get in contact with them...A SCAM.!? So I stopped payment to these ppl. Also contacted the agent who told me to call the 1-800 number for which I did and guess what? Disconnected. So I call the agent back now he won't answer his phone. I went to the old mutual site and tried to get on it and register..all the phone numbers are for Africa. And I also called the fraud hotline listed on the site...and the woman was a foreigner who asked me for my bank acct number???! I stated to her I would not give her that information considering I got her number off the old mutual site whom this company may have scammed me. So total I am out almost \$ 4,800.00 thinking I had a life insurance policy. Bastards!!

Complaint Title: FGLifeInsCo Complaint 106141 for \$2,664.09

Complaint #106141

On 3-16-06, an agent(whose signature I cannot identify) came to my home and informed me about the importance of life insurance. The application bore the name of Shenandoah Life insurance Company. I paid him \$41.68 for application fee. On 5-20-06, he returned with an application for life insurance. The premium amount was \$32.89 monthly. He only issued me a conditional receipt. Since that day, the said amount has continued to be withdrawn from my bank account.

On 4-24-12, a representative(Mr. Sabey K. Varpilah) from Primerica Financial services came and provided me with some important financial concepts. It was then he realized that the phone number provided on the conditional receipt was a non-working number. He immediately researched Shenandoah Life Insurance on the internet. He got a contact number and called the company. I was informed that my application was submitted in 2006, but was later withdrawn. The representative from Shenandoah life and my Primerica representative advised that I call my bank to inquire. I immediately did, and what I found out was shocking. I was informed that a company called Fglifeinsco Prem was responsible for drafting my bank account and that there was no contact number for FGlifainsco Prem. I at once instructed my bank to stop the payment. Once more. my my Primerica representative researched the web for the company. It was then I realized that this company was a scam. There was no information found on it. The total amount I have paid since I applied for this insurance is \$2664.09
