Complaint #106141

On 3-16-06, an agent(whose signature I cannot identify) came to my home and informed me about the importance of life insurance. The application bore the name of Shenandoah Life insurance Company. I paid him \$41.68 for application fee. On 5-20-06, he returned with an application for life insurance. The premium amount was \$32.89 monthly. He only issued me a conditional receipt. Since that day, the said amount has continued to be withdrawn from my bank account.

On 4-24-12, a representative(Mr. Sabey K. Varpilah) from Primerica Financial services came and provided me with some important financial concepts. It was then he realized that the phone number provided on the conditional receipt was a non-working number. He immediately researched Shenandoah Life Insurance on the internet. He got a contact number and called the company. I was informed that my application was submitted in 2006, but was later withdrawn. The representative from Shenandoah life and my Primerica representative advised that I call my bank to inquire. I immediately did, and what I found out was shocking. I was informed that a company called Fglifeinsco Prem was responsible for drafting my bank account and that there was no contact number for FGlifainsco Prem. I at once instructed my bank to stop the payment. Once more. my my Primerica representative researched the web for the company. It was then I realized that this company was a scam. There was no information found on it. The total amount I have paid since I applied for this insurance is \$2664.09

debited my bank account in monthly instalments and when I tried to contact them they were no-where to be found. The phone number they gave me goes to a ligit company who never heard of "FG LIFE INSURANCE CO". It appears that I am just another fool who has been taken for a ride. If there is any way to file legal action against these con men please count me in..

Complaint #230899

Fglifeins company is debiting my bank account since past couple years beginning from 2005 - I think so far I paid close to \$5,000 dollars. I tried calling them many times but never able to get pass there voice system no mater what time I call. I thought I should join the force in reporting their on going suspicious activities and hope we can help stop other customers in enrolling into there phony ins plans. They have well managed website and also claimed that they are with BBB, if they deny these reports can some one reach out to one of us or publish a message stating this is not all true and refund our claims... I might be dreaming but I wish it might come true.

Complaint #349140

I have been watching my account for this life insurance and haven't been able to find a policy or any information on it. I talked to a bank attendant about trying to get some information on the company today, 5-11-16.. They found a number which was not very helpful. I went on line myself after looking at all my life insurance information. I talked to someone who could not find anything with my name on it. I immediately called my bank to put a stop payment to the company, which cost me \$25.00. People like this should be prosecuted. They took \$21.87 out of my account for 14 months before I finally took the time to check on it. I don't have any of the above information for which you asked. The company is FGLifeInsCo.

Just discovered today I was scammed by this company(?) for at least \$200. My fault for not paying attention to my bank statements. I would really like to know where this company is located or anything about them at all. I even have a id theft account and had no idea this was going on.
